

agineo your partner in the field of AI

Artificial intelligence (AI) has become an indispensable part of modern business processes and significantly contributes to companies' success. We have developed a specialized product line for AI applications to meet the latest developments. Our AI consultants are focused on researching and developing innovative AI solutions that apply both on the ServiceNow platform and beyond. Especially in the field of generative AI, we see enormous potential to revolutionize business models and create new value chains on the Internet and mobile business. These technologies provide the basis for effective and future-oriented applications in your company. Our experts have put together a portfolio that will accompany you on the way to the full integration of AI into your processes.

Our portfolio

Business Consulting Data- and AI Strategy

The starting point in the portfolio is strategic consulting. agineo helps companies develop an effective AI and data strategy. The goal is to create a clear roadmap for the implementation and use of AI that meets business goals and creates competitive advantage.

Compliance Knowledge transfer and consulting

Once the strategy has been defined, compliance is ensured. agineo offers comprehensive consulting services to ensure that the planned AI solutions comply with the applicable regulations and standards. This includes reviewing ethical standards and legal requirements.

KI-Training Knowledge transfer and consulting

Accompanying each stage of the AI initiative, we offer training to prepare companies for the use of AI. These include both general training on AI readiness and specific workshops on the use of AI in the ServiceNow platform.

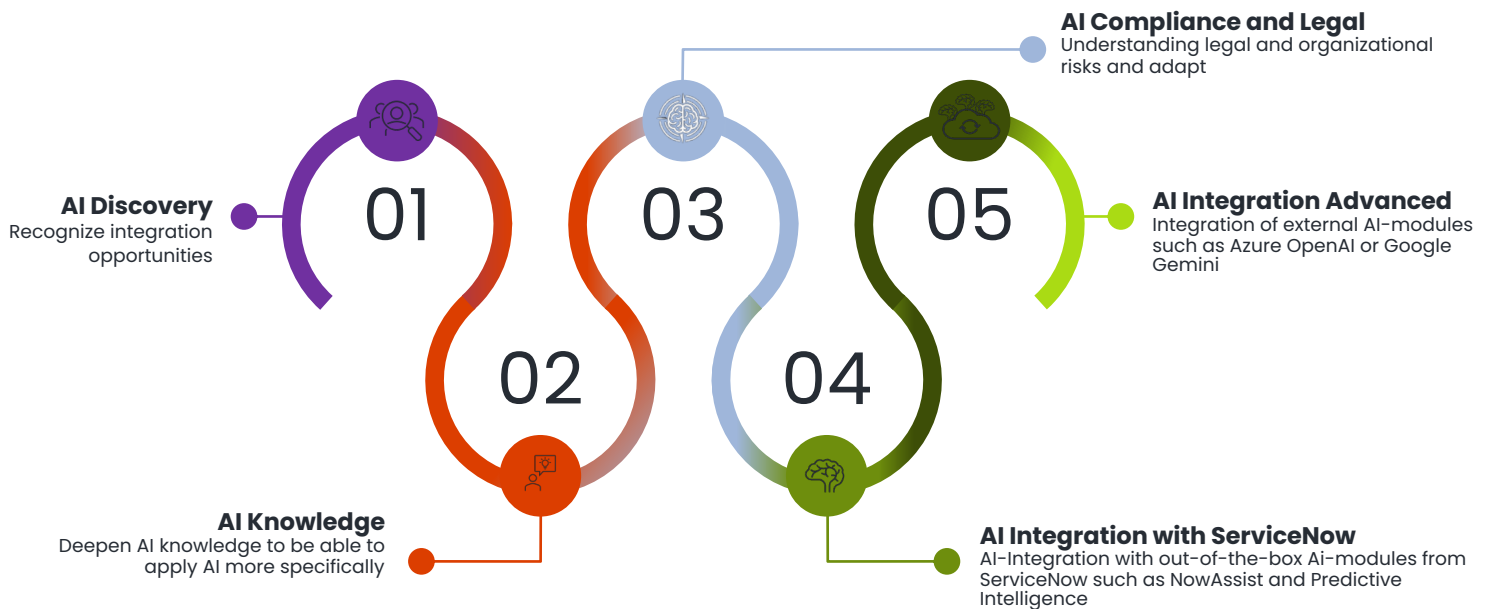

KI Integration

Custom integration of AI and integration of third-party AI solutions into ServiceNow

Ultimately, the projects will lead to the integration of AI into your company. agineo specializes in the customization and integration of AI into the ServiceNow platform, as well as the integration of third-party AI tools. This enables seamless workflows and improves the efficiency and effectiveness of business processes.

AI Journey

Our developed AI journey offers a flexible path for the integration of AI, supported by our consulting products.

About us

Agile and new but with more than 30 years of experience—that’s agineo, the largest partner of the platform provider ServiceNow in the DACH region. As an Enterprise Service Management specialist, we design business processes and implement them in software for well-known clients. To do this, we can draw on the broad technological expertise of the entire Materna Group, which is delegated across over 4,000 employees.

Our promise to deliver

With unwavering dedication and flexibility, we passionately take on responsibility for our customers. Our mission is their success, and we pull out all the stops to make it happen, both on time and on budget.
